Beyond Commitment

# Oblix Technologies Pvt. Ltd.

## Intimidated by too many new eBook reading devices?

**Oblix** simplifies eBook creation and conversion for any eReader, smart phones or tablets so you can be ready with your unique mobile-ready content, however your readers want to access it.

**Oblix** offers Publishers a truly flexible solution for preparing content for eBook devices and formats, including the Apple iPad and iPhone, Amazon Kindle™, SONY® eBookReader, and the Android and Mobipocket readers.

# Oblix Technologies Pvt. Ltd.

## ePubConversion

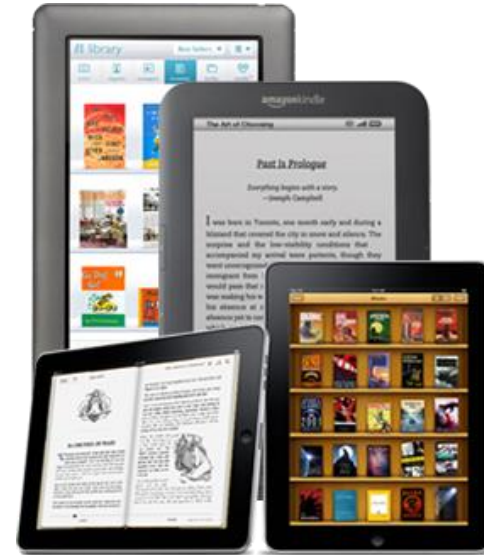

Publishers and distributors all over the globe have adopted this service simple because it works according to IDPF (International Digital Publishing Forum) standards with the extension .epub. Open Publication Structure (OPS), Open Container Format (OCF), and Open Packaging Format (OPF) are three open standards that are composed to create “.epub”. It was actually designed to optimize any particle display device for text display.

# Oblix Technologies Pvt. Ltd.

## Kindle / MobiConversion

Our service offers conversion of ebooks from the word, pdf, and scanned Documents into the Amazon format (.azw). We have clients who requires conversion of the ePub and iPad devices.

Our service gives you quality and fully satisfaction towards the Authors and Publishers. We work on complex titles which contains Tables, Images and Math Contents. Our service has vast experience in eBooks publishing for the past 2 years with the quality output.

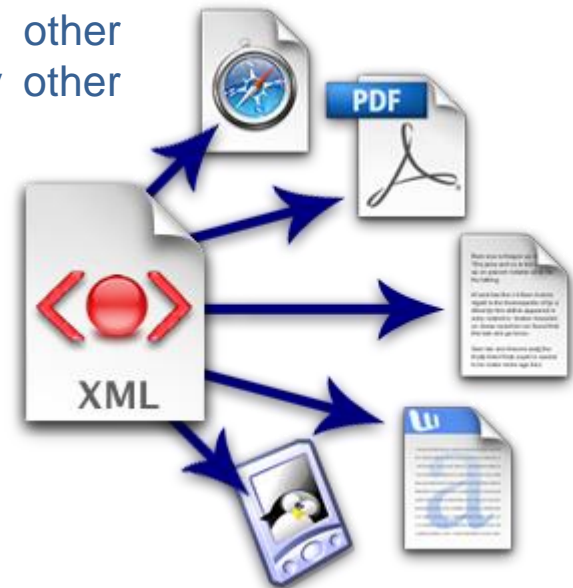

## XML / SGML / HTML Conversion

**Oblix** does XML conversion of books, journals, manuals, digital content, magazines, manuscripts and other unstructured documents. We convert PDF files to searchable XML and provide digital conversion services from original format such as MS Word and Excel. We also produce XML, SGML, HTML and other structured formats from hard copy, MS Word, PDF or any other document format.

### Our XML conversion services include conversion from the following formats:

- PDF

## Complimentary Service

We understand that starting a new relationship is always risky; therefore we would be most glad to complete a sample (trial) job for you at no cost or obligation, before embarking on the entire project.

This way, you will have the opportunity to see what kind of results you can expect (as well as our turnaround time) before committing to a full time relationship.

You can send in your queries at [contacts@oblix.co.in](mailto:contacts@oblix.co.in) we'd be most glad to address your needs or you can visit our website: [www.oblix.co.in](http://www.oblix.co.in).
